

BLUE FROG

LEASE RIGHT PROGRAM

OPPORTUNITY TO INCREASE THE VALUE OF YOUR PRACTICE WHILE MAINTAINING OWNERSHIP IN YOUR PROPERTY

Advantages of Lease Right

- Blue Frog identifies strategic improvements to your space geared towards increasing revenues.
- Increased revenues over time result in your overall practice value increasing.
- Opportunity for ownership to be shared between you and Blue Frog. If so, lease payments involve a return.
- Each project is curated to maximize return of investment based on your current practice trajectory, professional goals, the community you serve and your dreams for your future.

Client Testimony

I wanted to take this opportunity to thank you and the entire Blue Frog team for the completion of my renovations. The end results turned out even better than I had imagined. Whenever I decide if I would recommend a company to another individual, I ask if I would use that company again. Although I am hopeful that this will be my last renovation, I would absolutely work with you and your company again.

*Justin Toth, D.V.M.
Dallas Highway Animal Hospital*

**Our years of experience will help you overcome
many common project issues during the build phase.**
