# BLUE FROG

## DREAM DESIGN BUILD

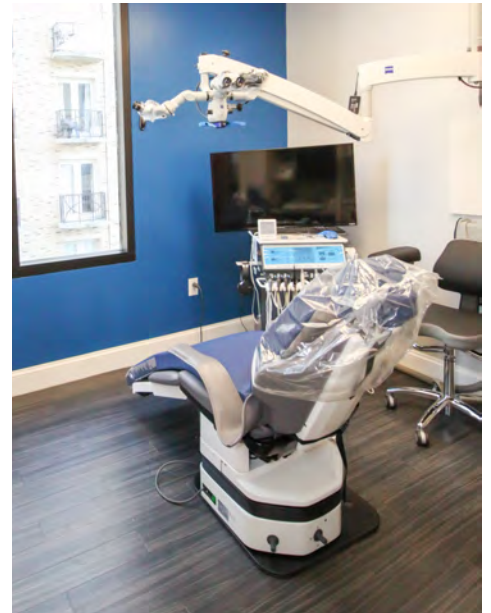

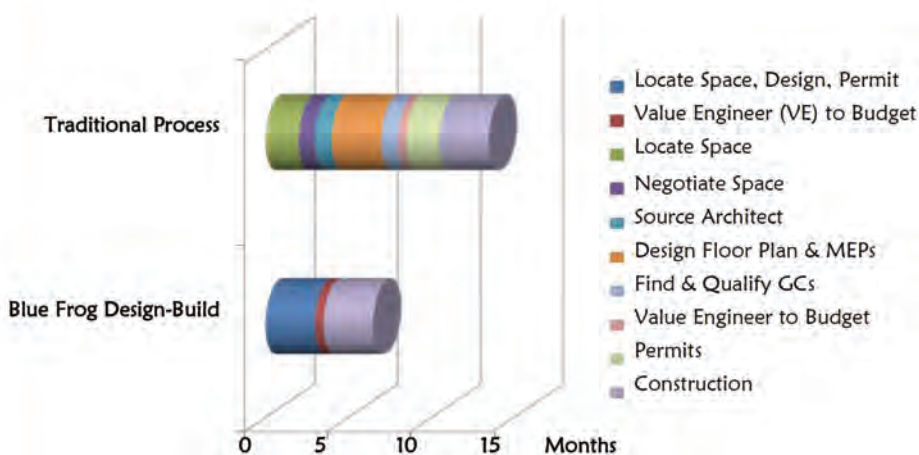

## DENTAL FEASIBILITY

Blue Frog specializes in the design and construction of medical office facilities. We assist our clients with feasibility studies, land acquisition, site development and building design.

Blue Frog works hard to help minimize risks and issues during each of our projects. By overlapping the design and construction phases, we can efficiently fast-track your project. We have a wealth of industry contacts to assist our clients with anything they desire to incorporate into a facility.

Blue Frog has completed over 600 projects that include interior and exterior renovations and ground-up projects. Our vast experience allows us to integrate unique ideas and innovative solutions, saving our clients time and money.

### HOW BLUE FROG'S DESIGN-BUILD PROCESS IS MORE EFFICIENT AND COST EFFECTIVE
